Forward: Priorities for Fall 2021 Reopening

A Message from the Superintendent of Schools

Dear Parents, Guardians, Students, Staff, and Community Members,

We have been working nonstop since the spring to prepare for a smooth 2021-2022 opening of schools. Beyond the unusual circumstances of the 2020-2021 school year, we were still successful in providing an exceptional educational experience for our students and the support from our families and community members certainly had a hand in that success.

The Governor's staff has informed the NYS Department of Education (NYSDOE) that the CDC guidelines should be the basis of preparing for the 2021-2022 school year until further information is issued by the Governor or DOH. The NYSDOE's Office of Student Support Services recommends that schools' use the CDC's Guidance for COVID-19 Prevention in K-12 Schools and the American Academy of Pediatrics' COVID-19 Guidance for Safe Schools as resources.

Some of the precautions we can expect to see this fall include:

- All classes will be in-person unless the Governor's Office and Department of Education state otherwise.
- All students and adults will be required to wear masks indoors; physical distancing will be maintained outdoors.
- We will maintain at least 3' distancing, where possible.
- Hallways/stairwells will be one-directional, where possible.
- We will maximize the use of outdoor learning spaces.
- Lockers will not be used at the secondary level until further notice.
- Children will continue to eat lunch in classrooms at the elementary level and at individual desks or physically distanced in middle and high school, where possible.
- All buildings will remain closed to visitors.
- Parents are asked to perform a health screening of their children prior to sending them to school. If your child is sick, please keep him/her home. While this might be an inconvenience, it is essential in keeping our community healthy.
- Hand sanitizer will be available throughout our buildings and frequent hand washing will be encouraged.
- The additional custodial staff hired last year have been retained for frequent cleaning.
- Class sizes will remain low at the elementary level and to the extent possible, at the secondary level, with CDC recommended 3' distancing in place.
- Children will continue to eat lunch in classrooms at the elementary level and at individual desks or physically distanced in middle and high school.
- Outdoor space for instruction will be maximized when possible.

- Masks are required on buses.

Our district's Reopening Taskforce has developed a plan that focuses on the following:

- The health and safety of the entire Baldwin community, with special emphasis on our students, faculty, and staff
- The importance of learning
- The social-emotional wellbeing of our school community

Every decision behind reopening has the best interest of every member of our school community as the focal point.

Please keep the following in mind as you review our Fall 2021 Reopening Plan:

1. Our reopening plan is to provide guidelines for the reopening of schools and district office into safe environments by working collaboratively with the state and local health departments, the NYS Department of Education, NYS Governor's Office, staff, students, families, and community members.
2. As long as we are allowed by public health officials, schools will be open for in-person instruction and learning, and ALL students should be in school.
3. Due to the uncertainty surrounding the pandemic, where things can change at a moment's notice, this plan will be updated as needed.
4. Remember to reference district communications as your most credible source of information. We have created a website (www.baldwinschools.org/reopening) dedicated to the fall reopening. If you have a question or need further information, please contact your child's principal.
5. All of us play a role in ensuring the health and safety of ourselves and others. Please serve as an example and follow the health and safety precautions outlined in this document, on our website, district communications, and/or in our buildings. Remember to educate your family to do the same.

The cooperation, patience and understanding shown by our community throughout the pandemic has been outstanding. I look forward to working together to ensure our students experience another extraordinary school year.

Sincerely,

Dr. Shari L. Camhi
Superintendent of Schools

Introduction

The plan outlined here is for the reopening of schools in the Baldwin UFSD for the 2021-22 school year, following the building closure related to the COVID-19 pandemic. This plan includes procedures that will be followed in the following schools:

- Baldwin High School
- Baldwin High School@Shubert
- Baldwin Middle School
- Brookside Elementary School
- Lenox Elementary School
- Meadow Elementary School
- Plaza Elementary School
- Steele Elementary School

Dr. Shari Camhi will serve as the district’s COVID-19 Coordinator. Mr. Eduardo Ramirez will work closely with our local health department as the Director of Health, Physical Education and Athletics. He will serve as a central contact for schools and stakeholders, families, staff and other school community members and will ensure the district is in compliance and following the best practices per state and federal guidelines.

Family, Staff, and Student Expectations

Families, staff, and students take a critical role in keeping our schools open and our school community safe and healthy. To participate in an in-person model, regardless of the phase, we need full cooperation with all the expectations outlined in this document. All these mitigation strategies are necessary for stopping the spread of the virus.

	Stay at Home if Feeling Ill: Students and staff must stay home if they are experiencing any symptoms of COVID-19 or if they have come in close contact with someone with COVID-19.
	Monitor Health Daily: Parents and staff are expected to screen daily for symptoms, including temperature checks.
	Face Covering or Masks Required: Students and staff must wear face coverings or masks that completely cover the nose and mouth while inside the school and on the bus.

	<p>Social Distancing Required: Students and staff must maintain social distancing to the greatest extent possible. Students and staff are expected to practice social distancing when entering and exiting the building, in classrooms, and moving throughout the school. Sharing of school supplies and materials will be limited to situations when those materials can be disinfected between uses.</p>
	<p>Frequent Hand Washing or Sanitizing: Students and staff must engage in frequent hand washing or sanitizing upon arrival, before and after meals, after bathroom use, and after coughing or sneezing.</p>
	<p>Students Must Be Fully Engaged in All Learning Activities: Students are expected to be active participants in all learning activities regardless of the instructional setting. In addition, they are expected to be self-directed learners and follow the Code of Conduct whether learning in-person or remotely.</p>

Communications

Overview

Baldwin Union Free School District (UFSD) will provide clear and consistent communications to students, parents, staff, and community members before and during reopening of schools and throughout the 2021-2022 school year, leveraging various channels. The district aims to ensure that all audiences stay informed and updated at all times with the latest information.

The district will utilize a variety of communication methods, including a central website location at: www.baldwinschools.org/reopening

Objectives

- Provide target audiences with clear and ongoing communications about expectations for the 2021-2022 reopening, especially as the situation changes
- Foster strong two-way communication for all audiences across the district, including parents, students, faculty and staff
- Make reopening plans easily accessible in a central location on the Baldwin UFSD website (www.baldwinschools.org/reopening) and available in relevant languages of Baldwin families, as well as for those with visual and/or hearing impairments

Target Audiences/Stakeholders

The communications component of the plan will target:

- Parents/Guardians

- Students
- Administration
- Faculty
- Staff
- Visitors, including Community Members

Communication Channels

Please note that many of these channels are easily accessible from the district website at: www.baldwinschools.org/communications

Digital

Website

- Central location for plans and other important information and guidelines related to reopening and e-learning protocols
- Website Alerts
 - Alerts will pop up on any of the district’s website pages and will feature updated messages for the community.
- Website District Calendar
 - A copy of the district calendar can be download directly to a cell phone. Date and time changes and any other new information will automatically get updated, which includes any cancellations. Just follow these [instructions](#).

Electronic Signage

- Electronic signs located throughout each building, predominately at the main entrance, will include important messaging related to health and safety policies
- Digital Marquee (large electronic sign), located on Grand Avenue, will provide brief reminders for the community, such as where to find information on the website and whether or not schools are open, etc.

Email/Text/Broadcast Messages

- Through email, text, and phone calls, Baldwin UFSD will continue to disseminate information. Families should make sure to update contact information, including a mobile phone, with the main office of their child’s school. All high school students should also make sure their cell phone number is on file in case of an emergency.
- Baldwin residents with no children in the K-12 school system (including private and parochial), who would still like to receive important updates from the district to the community, please visit www.baldwinschools.org/notificationsignup to sign up.

Virtual Backpacks

- At times, specifically targeting K-5, information will be placed in Virtual Backpacks for parents, which are located on each of the school's individual websites.

Print

The Baldwin Beat

The official quarterly newsletter that is mailed out to all Baldwin homes, will feature any important updates and reminders, as needed.

2021-2022 District Calendar

- Mailed to all Baldwin residents and copies are also available in Registration (960 Hastings Street), the calendar will feature preventative measures for the spread of COVID-19 and reminder about signing up for important messages.

Signage

- [Stop the Spread signs](#) are placed in prominent locations throughout the schools and the District Office to create a constant visual reminder of prevention strategies.
- Signs on [hand washing](#) are placed on or close to mirrors/in front of sinks in bathrooms as visual reminders to wash hands for at least 20 seconds.
- Directional arrows are also placed in hallways/stairways to indicate traffic flow.
- At the main entrance, reminders about wearing masks and social distancing are also be posted.

Sample Signage

Other Methods for Communications

Broadcast Media

- For sudden school closures, the district may send updates to NBC Channel 4, WNYW Channel 5, ABC Channel 7, News 12 Long Island and radio stations, WCBS 880AM and

WINS 1010 AM. The news outlets will either announce on the air, run across the bottom of the screen, and/or simply post to their main website.

School Announcements

- Within the schools, during the morning announcements, building principals will highlight prevention and hygiene strategies and remind students of the proper safety protocols.

Health and Safety

Health and Safety

Focused on preventive actions in schools:

Health Checks  <ul style="list-style-type: none">• schools must instruct staff to recognize signs and symptoms of illness in students and staff, and health screenings per DOH guidance.	Health Hygiene  <ul style="list-style-type: none">• schools must instruct students and staff in proper hand and respiratory hygiene and provide necessary supplies.
Social Distancing  <ul style="list-style-type: none">• schools must develop plans to maximize social distancing whenever possible.	Face Coverings and PPE  <ul style="list-style-type: none">• requires students and staff to wear face coverings (or PPE based on job functions), per DOH guidance.
Management of ill persons  <ul style="list-style-type: none">• requires persons with signs and symptoms of COVID-19 to be isolated until they can be sent home.	Cleaning and Disinfecting  <ul style="list-style-type: none">• reviews cleaning and disinfecting procedures for the school in accordance with CDC recommendations.

Health Screenings

Parents will be required to screen their child each morning before sending them to school.

All cases will be reported to the Nassau County Department of Health and the district will follow their recommendations. Each building will be assigned a COVID-19 Liaison who will communicate concerns or issues that may come up with the Director of Health Services

Personal Protective Equipment (PPE) Protocol

Baldwin UFSD has reviewed the [OSHA COVID-19 guidance](#) on how to protect staff from potential exposures as well as [CDC guidance on proper PPE use](#).

- All staff should wear face coverings as required by the NYSDOH and NYSED Reopening Guidance Document. Baldwin UFSD will provide masks if the employee does not have a face covering.

- Teaching staff can use face shields, in addition to clear facemasks, which enable students to see their faces and to avoid potential barriers to phonological instruction. These will be provided by Baldwin UFSD as needed to elementary and special education staff.
- For any staff wearing a face shield, it is required that they also wear a surgical.
- Baldwin UFSD will supply other PPE appropriate for work assignments (complying with OSHA requirements)
 - Employees engaging in symptom screening: surgical masks, face shields, and disposable gloves will be provided.
 - Nurses will have access to a higher degree of PPE due to the nature of their work.
 - Food service employees: face coverings and disposable gloves will be provided.
 - Custodial staff: equipment and PPE for cleaning and disinfecting.

Student PPE Protocol

- The NYSDOH states that an acceptable face covering will be worn at all times, except during lunch and outside.
 - However, if face coverings are to be worn by all individuals at all times, Baldwin UFSD will permit students to remove their face covering during meals, and for short breaks so long as they maintain appropriate social distance.
 - Acceptable face coverings include but are not limited to cloth-based face coverings and surgical masks that cover both the mouth and nose. Gaiter masks are not acceptable.

Outside Visitor Protocol

- Appointments will need to be made in order for a visitor to access a school building. Outside visitors will be discouraged and access limited to parents only when necessary.
- All buildings will require visitors to sign in and a log will be maintained with the date, time, and places visited to assist with contact tracing efforts, if necessary.
- All contractors and visitors will complete the COVID-19 questionnaire before being allowed to enter a building.
- We will evaluate whether and to what extent community organizations can safely utilize the district facilities. At the current time, no community organizations will have access to our buildings.
- If access is granted to community organizations, they will be required to follow the school district's health and safety plans and NYS Department of Health guidance.
- We will review facility use agreements and establish common facility protocols for all users of the facility.
- We will establish protocol for accepting deliveries safely.

Facilities

Covid-19 Cleaning and Disinfecting Protocols

Reducing the risk of exposure to COVID-19 by cleaning and disinfecting is an important part of reopening public spaces that will require careful planning. Every American has been called upon to slow the spread of the virus through social distancing and prevention hygiene, such as frequently washing your hands and wearing face coverings. Everyone also has a role in making sure our communities are as safe as possible to reopen and remain open. The virus that causes COVID-19 can be killed if you use the right products. EPA has compiled a list of disinfectant products that can be used against COVID-19, including ready-to-use sprays, concentrates, and wipes. Each product has been shown to be effective against viruses that are harder to kill than viruses like the one that causes COVID-19.

Intensify Cleaning and Disinfection Efforts for High Cases in Community

- Routinely clean and disinfect surfaces and objects that are frequently touched. This may include cleaning objects/surfaces not ordinarily cleaned daily (e.g., doorknobs, light switches, classroom sink handles, countertops, keyboards).

Clean and Disinfecting of COVID-19 Confirmed Case in Schools

- Clean and disinfect area thoroughly.
- Close off areas used by the individuals with COVID-19 and wait as long as practical before beginning cleaning and disinfection to minimize potential for exposure to respiratory droplets. Open outside doors and windows to increase air circulation in the area.
- Cleaning staff should clean and disinfect all areas (e.g., offices, bathrooms, and common areas) used by the ill persons, focusing especially on frequently touched surfaces.
- If surfaces are dirty, they should be cleaned using a detergent or soap and water prior to disinfection.

Bathroom Cleaning During Operation of School

Secondary Buildings

Bathrooms in secondary buildings will be checked, cleaned and disinfected regularly. The bathroom check sheet will be filled out after each bathroom is complete.

Items to be checked:

- Waste basket emptied
- Toilets flushed

- Hand soap checked
- Paper towels checked
- Toilet paper checked
- Sinks and toilets wiped down with cleaner and disinfectant
- Flush meters wiped down with cleaner and disinfectant
- Sinks and toilets wiped down with cleaner and disinfectant
- Door handles wiped down with cleaner and disinfectant
- Paper towel dispensers wiped down with cleaner and disinfectant
- Toilet paper dispensers wiped down with cleaner and disinfectant
- Partition door handles wiped down with cleaner and disinfectant

Elementary Bathrooms

Bathrooms at elementary schools will be checked during teacher prep times if bathrooms are in the classrooms. Bathrooms in common areas will be checked throughout the day at least three times throughout the day. The bathroom check sheet will be filled out with date and time included.

Items to be checked:

- Waste basket emptied
- Toilets flushed
- Hand soap checked
- Paper towels checked
- Toilet paper checked
- Sinks and toilets wiped down with cleaner and disinfectant
- Flush meters wiped down with cleaner and disinfectant
- Sinks and toilets wiped down with cleaner and disinfectant
- Door handles wiped down with cleaner and disinfectant
- Paper towel dispensers wiped down with cleaner and disinfectant
- Toilet paper dispensers wiped down with cleaner and disinfectant
- Partition door handles wiped down with cleaner and disinfectant

Nurse Room

Nurse room at both secondary and elementary schools shall be cleaned and disinfected with a plan that includes the building principals, nurse and head custodian to organize an ideal time to clean and disinfect the nurse's room. In most cases, such as elementary schools, a uniform time may be right after lunch as high volume of nurse visits is during lunchtime.

Items to be checked, cleaned, and disinfected:

- Countertops wiped down with cleaner and disinfectant
- Nurse desk wiped down with cleaner and disinfectant

- Bathrooms wiped down with cleaner and disinfectant
- Doorknobs wiped down with cleaner and disinfectant
- Phones wiped down with cleaner and disinfectant
- Nurse bed wiped down with cleaner and disinfectant
- Light switches wiped down with cleaner and disinfectant

High Hand Contact Cleaning

High hand contact cleaning will continue from the start of school. This will be built into the normal daily cleaning schedule for all schools throughout the year. *The below items will be wiped down with cleaner and disinfectant.*

- Doorknobs inside and outside
- Light switches
- Flush meters
- Sink faucets
- Bathroom stall doors
- Paper towel dispensers
- Toilet paper dispensers
- Desktops
- Countertops
- Phones
- Any other surfaces that are frequently touched by people

Ventilation and Doorways

The district will maintain adequate ventilation. The district is also collaborating with a consultant to assess conditions and capacity of existing units/air flow while integrating MERV (Minimum Efficiency Reporting Value) ratings. Stairs and corridor doors have closers with automatic hold opens. These doors will remain open. Classroom doors will also remain in the open position to reduce the spread of the disease by reduce students and staff touching doorknobs.

Emergency Drills

[Education Law § 807](#) requires that schools conduct 8 evacuation and 4 lockdown drills each school year. When planning drills, consideration will be given to the guidelines recommended by the DOH and NYSED Reopening document to minimize risk of spreading infection. As such, it may be necessary drills in the 2021-22 school year to be conducted using protocols that are different than the previous year, such as conducting drills on a “staggered” schedule and ensuring all students participate in all emergency drills. Students will be required to wear masks during all emergency drills.

Inspections

The district will continue with all statutory requirements and inspections.

Transportation

Students and staff on buses are required to wear masks. Students with a disability that might prevent them from wearing a mask will not be required to wear one, provided they have been granted a medical exemption. Special procedures will be developed on a case-by-case basis. When the temperature is 45 degrees or higher bus windows/hatches will be ajar to allow for fresh air circulation. It is a parent's responsibility to ensure their child(ren) is (are) not experiencing any signs of COVID-19 prior to boarding a school bus. The NYS Education Department has allowed flexibility with social distancing on school buses.

Nutrition

Proper nutrition is essential for students to be able to feel safe, grow, and learn. Baldwin UFSD has developed a food service plan to ensure students are able to eat safely while maintain social distancing. Children will continue to eat lunch in classrooms at the elementary level and at individual desks or physically distanced in middle and high school, where possible.

Staffing/Human Resources

- All staff will complete a Health Screening/Entry Requirements Questionnaire at the start of the year in SchoolFront, the employee system.
- Staff will wear face coverings at all times indoors.

Response to Positive COVID-19 Case

Baldwin UFSD will collaborate and communicate with the school district lead physician, Dr. S. Kowal-Connelly and the Nassau County Department of Health. All cases will be reported to the Nassau County Department of Health and the district will follow their recommendations. Each building will be assigned a COVID-19 Liaison who will communicate concerns or issues that may come up with the Director of Health Services.

Close Contact

According to the CDC, a [close-contact](#) is defined as:

- The CDC has defined a close contact as someone who was within [6 feet of an infected person](#) for a cumulative total of 15 minutes or more over a 24-hour period, starting from 48 hours (about 2 days) prior to the onset of symptoms or if asymptomatic from the date of the positive test result.
 - **Exception:** In the **K–12 indoor classroom** setting, the close contact definition excludes students who were within 3 to 6 feet of an infected student if both the

- infected student and the exposed student(s) [correctly and consistently](#) wore well-fitting [masks](#) the entire time.
- This exception does not apply to teachers, staff, or other adults in the indoor classroom setting.

You are also NOT considered a close-contact:

- If you have been vaccinated and NOT showing symptoms **OR**
- you tested positive for COVID-19 within the last 90 days and NOT showing symptoms

In addition, we will follow the protocol outlined in the NYSED Reopening Guidance document which are outlined below:

If Students or Staff become Ill with Symptoms of COVID-19 at School

- Baldwin UFSD should follow [Education Law § 906](#)
- Students suspected of having COVID-19 awaiting transport home by the parent/guardian must be isolated in a room or area separate from others, with a supervising adult present utilizing appropriate PPE. Multiple students suspected of COVID-19 may be in this isolation room if they can be separated by at least 6 feet
- The CDC and NYSDOH recommend:
 - Closing off areas used by a sick person and not using these areas until after cleaning and disinfection has occurred.
 - Opening outside doors and windows to increase air circulation in the area.
 - Clean and disinfect all areas used by the person suspected or confirmed to have COVID-19, such as offices, classrooms, bathrooms, lockers, and common areas.

Return to School after Illness

Baldwin UFSD will follow CDC guidance for allowing a student or staff member to return to school after exhibiting symptoms of COVID-19.

If a person is **not** diagnosed with COVID-19, they can return to school:

- Once there is no fever, without the use of fever reducing medicines *and* they have felt well for **24 hours**
- If they have been diagnosed with another condition and has a healthcare provider's written note stating they are clear to return to school

If a person is diagnosed with COVID-19 by a healthcare provider based on a test *or* their symptoms or does not get a COVID-19 test but has had symptoms, they should **not** be at school and should stay at home until:

- It has been at least ten days since the individual first had symptoms; **AND**
- It has been at least three days since the individual has had a fever (without using fever reducing medicine); *and*

- It has been at least three days since the individual’s symptoms improved, including cough and shortness of breath.

Testing

A voluntary testing service will be provided by the district on a weekly basis, starting in the fall.

Contact Tracing

Baldwin UFSD will make every effort to assist the local health department and contact tracers to trace all persons who had contact with a confirmed case of COVID-19. Specifically, we will:

- keep accurate attendance records of students and staff members.
- ensure student schedules are up to date.
- keep a log of any visitors which includes dates, time, and where in the school they visited.
- Contact Tracing Responsible Parties will be the school nurse at each school in coordination with building and district administration.
- The nurse will notify the Director of Health Services and Athletics, who will notify the Superintendent of Schools (who is also the COVID-19 Coordinator) and state and local health departments immediately upon being informed of any positive COVID-19 diagnostic test results by an individual within school facilities or on school grounds, including students, faculty, staff, and visitors.
 - This is in accordance with [Education Law § 906](#)
- Baldwin will support NYSDOH’s efforts in tracing all contacts of the individual, in accordance with the protocols, training, and tools provided through the [New York State Contact Tracing Program](#).
- Confidentiality will be maintained as required by federal and state law and regulations. Responsible parties must cooperate with all state and local health department contact tracing, isolation, and quarantine efforts.

Frequently Asked Questions

General

What guidelines did Baldwin Union Free School District follow when drafting the plan for Re-Opening 2021?

School districts, including Baldwin UFSD, have received formal guidance from the CDC, the New York State Department of Health (NYSDOH) and from the New York State Education Department (NYSED).

What role as a parent should I take?

All of us play a role in preventing the spread of COVID. Remember to:

- Conduct daily health screenings
- Get your child acclimated with wearing a mask prior to the school year.
- Teach your child how to properly wash hands (at least 20 seconds)
- Social distance, especially with friends and in situations where one can easily forget
- Follow district instructions and read communications
- Ensure they are engaged with their academics
- Check on their social emotional well being
- Get vaccinated, if possible
- Set an example

Health and Safety

Who is mandated to wear a mask?

All staff and students K-12 will be required to wear masks indoors.

Who will provide the masks?

Parents or guardians should supply their children with reusable masks which should be washed daily. Schools will have extra disposable face masks available if needed.

What are acceptable face coverings/masks?

Per the NYSDOH Guidance, acceptable face coverings include but are not limited to cloth-based face coverings and surgical masks that cover both the mouth and nose. Gaiter masks are considered unacceptable.

Will families be asked to take temperatures?

Yes, we ask that all families check temperatures and symptom checks each morning prior to boarding the bus or entering the school (if your child is driven to school). Also, please closely monitor your child's health and any symptoms they may be experiencing. Do not send your child to school if your child is having symptoms of illness. Parents and guardians are asked to perform a wellbeing check of their child at home at the start of the day and not send them to school if they exhibit COVID-19 symptoms, including a temperature of 100.4 degrees or higher.

What are the symptoms of COVID-19?

Watch for fever of 100.4 and over, cough, shortness of breath, or other symptoms of COVID-19. Visit the Center for Disease Control website to learn more.

<https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>

What if a student reports coronavirus-like symptoms during the school day?

A designated room will serve as a COVID-19 isolation space. This will be separate from the nurse's office or where routine medical care is offered to students. Students will wait in this room until they are picked up by a family member.

Will COVID-19 testing be offered in schools?

Weekly testing on Fridays at the District Office, 960 Hastings Street, will be offered, starting in the fall. Please also visit the [DOH website](#) to find the nearest location for COVID-19 tests.

What Personal Protective Equipment (PPE) will be used to protect students and staff?

The district has purchased a variety of materials that includes but not is limited to:

- Face shields
- Face masks
- Transparent masks (speech services and specialized programs)
- Transparent student desks shields (elementary as needed)
- Transparent teacher desk shields (secondary as needed)
- Cleaning and disinfecting supplies and materials
- Signage for classrooms, hallways and throughout the school

Will more aggressive cleaning and disinfecting be implemented upon our return to school?

Yes, the school district follows requirements from the CDC and DOH on cleaning schools. We will continue enhanced cleaning and disinfecting of frequently touched surfaces and school spaces during the day with deep cleaning after school hours. Throughout the summer, we have been purchasing additional cleaning materials and supplies to be prepared for the coming school year. We are also increasing the number of full-time cleaners and part-time cleaners to allow us to increase the frequency of cleaning in which our buildings are sanitized.

Will regular handwashing and hand sanitizing be put in place K-12?

Yes, protocols and training for handwashing and hand sanitizing will be in place for all students, faculty and staff.

Will visitors be allowed in the schools?

An appointment only protocol is currently in place.

Are parents required to ensure that their child or children do not show symptoms of COVID-19 or a fever before boarding a bus each day?

Screenings at home by the parent/guardian prior to school are required.

Instruction, Remote Learning, and Schedules

What if we must go fully remote learning again?

The district will be able to go fully remote should we need to close schools temporarily or for an extended period if a student or staffer tests positive.

What will classrooms look like?

State guidelines require desks and other learning spaces keep students at least 3-feet apart – with 3-feet of social distancing suggested when possible. If necessary, desks will be spaced further apart and some classrooms might be moved into common spaces such as cafeterias, auditoriums and libraries.

Will before-school/after-school care be provided for elementary school students?

Yes. The JCC before- and after-school program will return to Meadow and Plaza Schools.

Will schedules change?

All schools will be returning to normal hours for ALL students:

Elementary Schools (K-5).....8:40 AM – 3:00 PM
Baldwin Middle School.....8:05 AM – 2:07 PM
Baldwin High School.....7:42 AM – 2:34 PM
Baldwin High School@Shubert.....9:27 AM – 3:43 PM

Please refer to future communications from the superintendent and building principals for more information.

What if I choose to homeschool my child?

[Homeschooling](#) and remote learning are very different. Homeschool requires parents to submit a letter of intent, official assessments, reports cards, and other important documents to the district. The district does not provide any assistance to parents who homeschool, other than sending records to State Ed (part 100.10 regulations). A parent may choose to homeschool as long as they are adequately prepared. Please contact 516-434-6020 to learn more.

Transportation and Nutrition

Will busing still be provided?

Per New York State Education guidance, families are encouraged to arrange alternate transportation if possible, including students walking or biking, as well as parents picking up and dropping off their children.

Are students required to wear masks and social distance on a school bus?

All students are required to wear a mask and should maintain appropriate social distancing. The only exception to the mask requirement is that students whose physical or mental health would be impaired by wearing a mask are not required to do so, but they must maintain social distancing where possible from other individuals on the bus.

Communications

How do I receive updates from the district?

Information from Baldwin UFSD will be distributed across a wide array of platforms. To receive updates directly through email, phone calls, and/or text messages, make sure the district has the latest contact information by contacting the main office of your child's school. If you do not have children in the district, please sign up for communications at www.baldwinschools.org/notificationsignup. All other communication platforms can be found at: www.baldwinschools.org/communications

What if I still have questions?

Please reach out to your building principal.
