Please join us for a presentation on  
**Understanding the Teenage Brain**

**Featured Speaker**  
***Dr. Caryl Oris***

School psychiatrist and speaker to parent groups about mental health

Caryl Oris, MD, is a child and adolescent psychiatrist. This workshop will provide information for parents on how adolescent brain development informs us about decision making, risk-taking, academic growth, and peer relationships in our teenage children. Teenage mental health issues will also be discussed.
